WHO I AM

One person responsible for your technology —
from the first meeting to long-term support.

20+ years

in IT and computers, since the early
2000s

Thousands

of computers set up for homes and
offices

3 languages

English, Russian and Georgian

In person

no managers or middlemen,
meetings in Batumi

WHAT I DO

Technology for business, done personally

Multilingual websites

Company and personal-brand sites in your clients' languages, with an admin panel.

AI for teams

ChatGPT and Claude for texts, translations and client replies; team training.

Office and sales IT

Computers, network, guest Wi-Fi, printers, backups – selection, setup, support.

Google and search

Google Maps listing, pages in every language, markup for Google and AI search.

Data security

Two-factor protection, password managers, device checks for leaders and teams.

Tech for shoots and events

Laptops on set, footage backups, fast file transfer, Wi-Fi and connectivity.

9

CASE STUDY

A website in 9 languages for an international Batumi company

- Right-to-left Arabic, Turkish, Kazakh, Georgian and more
- Its own admin panel: news, events, gallery
- Enquiry forms with spam protection
- SEO markup for every language version

See it in my portfolio: tariel.ge/portfolio/en/

FOR DEVELOPERS AND HOTELS

Your buyers read Arabic, Turkish, Russian and English. *Your website should too.*

Residential complex site

Photos, floor plans, construction stages, map and WhatsApp — in 3 to 9 languages.

Hotel or aparthotel site

Rooms, amenities, one-tap call and WhatsApp; booking through your service or directly.

AI replies and office IT

Faster multilingual replies for managers and reception; computers, network, guest Wi-Fi.

HOW WE WORK

Four clear steps

01

We meet

In Batumi. I look at your business, property or hotel and the goals.

02

Plan and price

Scope, languages, timing and cost — agreed before any work.

03

Launch in stages

The main language first, then the rest — results come sooner.

04

Support

Edits, new languages, team training, support under contract.

WORKING TERMS

Honest terms, in writing

3-month guarantee

on the work I have done

30 days of free support

remote help after launch

Everything in your name

domain, hosting, texts and photos belong to you

Licensed software only

no cracked programs, no “activators”
